

Singapore Bridge Construction

Overview

Singapore's skyline is set for another striking addition as the Urban Redevelopment Authority (URA) prepares to launch the Marina Centre-Bay East Bridge project. This pedestrian and cyclist link across the Marina Channel is scheduled to begin construction in Q1 2026 and be completed. The bridge, to be located near Block 410 Jurong West Street 42, measures 10m long and 5m wide. Singapore will build its first 3D-printed concrete pedestrian bridge over Jurong River by 2028, connecting Jurong West and Tengah town. This blueprint launched on June 26, 2025, outlines development goals for the next 10 to 15 years prioritising liveability, sustainability.
