

Slovenia High Voltage Complete Equipment Factory

Overview

We are a successful Slovenian company specialized in the production of power and generator transformers with a rated power up to 500 MVA and a rated voltage up to 420 kV. With our products, we compete in global markets by exporting them to more than 40 different countries on five. With highly qualified experts, we implement advanced and reliable technical solutions in the field of electricity generation, transmission and distribution for public utility companies and. The work of the High Voltage and Power Plants Department entails various fields connected with high voltage devices and electrical power facilities and their problems.

Slovenia High Voltage Complete Equipment Factory

About the company , Elektra

Elektra inzeniring d.o.o. is one of the leading providers of electrical installations in Slovenia. We have a 100-year tradition in successfully running business both at home and abroad.
