

Smart Building Cable Management Stand IK10

Overview

Essential in managing mains leads/hoses in construction environments, removing possible trip hazards. Whether in private homes or public facilities, intelligent networking in building technology provides enormous potential for more security, energy and cost efficiency as well as user comfort. ABB offers a total ev charging solution from compact, high quality AC wall boxes, reliable DC fast charging stations with robust connectivity, to innovative on-demand electric bus charging systems, we deploy infrastructure that meet the needs of the next generation of smarter mobility. With it's introduction in 1994, the Mighty Mo® line of cable management racks has been the benchmark open-frame rack in the industry, providing a solid foundation for the rest of our cable management products. A procurement-friendly, engineer-approved blueprint to select RS-485, KNX/EIB, control, Ethernet, coax, and fiber cabling for HVAC, lighting, access control, fire & safety, and building networks—optimized for reliability, maintainability, and lifecycle cost.

Smart Building Cable Management Stand IK10

Cabling Architectures for

In this issue, as part of our ongoing look at networks for smart buildings, we will outline the two main cabling approaches for connecting and powering smart devices: fixture centric and node centric.
