

South Korea s earthquake-resistant cable trays

South Korea s earthquake-resistant cable trays

Seismic Bracing Systems

Seismic bracing systems, are developed to prevent possible damages in the building installation, especially during natural disasters

[Contact Us](#)

Earthquake Resistant Type cable tray

The present invention relates to an earthquake resistant cable tray. An object of the present invention is to provide an earthquake resistant cable tray for preventing a cable tray from being damaged by

[Contact Us](#)

Earthquake Resistant Type Cable Tray System

The earthquake resistant cable tray system includes a cable tray; a cable tray support member having a pair of vertical members fixed at a roof of a building to be vertically disposed, and a horizontal
