

Spectrometer in Côte d'Ivoire won't turn on

Overview

Please plug the PS-2600 or PS-2600A into a dedicated power source (cell phone charger), and press the recessed, reset button on the end of the spectrometer. If you find that your spectrometer is not turning on or is not charging, please try the following to revive your device. This allows the light source to stabilize, which is crucial for a steady baseline and consistent readings. The general approach is to try the simplest thing first, and if that doesn't work try something a little more drastic, and if that doesn't work.

Spectrometer in Côte d'Ivoire won't turn on

Troubleshooting Common Spectrometer Issues

Most spectrometer problems stem from three things: incorrect calibration, poor sample prep, or hardware wear. Start by checking your
