

Syrian Single-Mode Well Logging Optical Cable

Syrian Single-Mode Well Logging Optical Cable

The High-Temperature Resistant Well Logging Optical Cable

Adaptable para pozos de petróleo, pozos de gas, minas de carbón o bajo condiciones de temperaturas elevadas. Los cables marcados con Dry; son una serie de cables en los que la típica agua que

[Contact Us](#)

Distributed Acoustic Sensing Acquired Wellbore Seismic Data Using

When optical fibers are part of a hybrid optical-electrical logging cable, seismic data can be acquired during any logging intervention, improving efficiency and data collection. This integration reduces the

[Contact Us](#)

Cable Logging? Optical Fiber Logging?--JASON is

It is suitable for testing vertical wells or inclined wells with inclination within a certain range (within 40°), and it cannot be used for horizontal well logging.

Cable Logging? Optical Fiber Logging?--JASON is

Difference between Optic-Fiber logging and traditional cable logging The electrical-based sensors used in cable logging can not work continuously in harsh

Optical fiber logging cable Special cable

Optical fiber logging cable enables the transmission of detailed data over long distances, making it an essential component in oilfield service operations. Overall, the use of optical fiber

Fibre Optic Cable

View Eland Cables' range of singlemode and multimode fibre optic cables - loose tube and tight buffered. Technical support, fast quote, international logistics and

[Contact Us](#)

The High-Temperature Resistant Well Logging Optical Cable

The range of cables for direct buried installation includes all our four basic designs: concentric core, grooved core tape, DryTech and tape in loose tubes. The cables are reinforced with corrugated steel

[Contact Us](#)

Production logging via coiled tubing fiber optic

However, a number of shale gas wells need to be evaluated in the effects of well drilling and completion and fracturing, providing the guidance for the next fracturing design, so the production logging via

[Contact Us](#)

Distributed Fiber Optic Vibration Signal Logging Well

Traditional logging methods need a lot of data support such as suction profile information, reservoir geological information, and production information of

[Contact Us](#)

Vertical seismic optical profiling on wireline logging cable

A single shot generated equivalent data with an experimental optical wireline logging cable and an adequate optical interrogator at the surface. The main difference between the two records is the

[Contact Us](#)

Hybrid Electro-Optical Cable for Coiled Tubing Logging and

This study presents the evolution of downhole fiber optics to a new hybrid electro-optical cable for coiled tubing (CT) applications. The optical fibers enable optical communication and
