

Total Investment in Global Energy Interconnection

Overview

London and New York, January 26, 2026 – BloombergNEF's (BNEF) annual Energy Transition Investment Trends (ETIT) finds that global investment into the energy transition hit a record \$2. Global energy investment is set to exceed USD 3 trillion for the first time in 2024, with USD 2 trillion going to clean energy technologies and infrastructure. Investment in clean energy has accelerated since 2020, and spending on renewable power, grids and storage is now higher than total spending.
