

# Ukraine s Fully Interconnected Data Center

## Overview

---

The "PARKOVYI" Data Center is the only one of commercial data centers in Ukraine, which has a TIER III Certificate from the Uptime Institute. The clients of the Data Center have permanent access to Microsoft products with payment of licences only on the fact of their use. The Ministry of Digital Transformation of Ukraine and international technology holding TECHIIA signed a memorandum of cooperation on the development of the Information Technology industry, construction of data centers, development of esports, and STEM education. How can Ukrainian data centers (DCs) transform from their traditional colocation and IaaS models into competitive public cloud providers in the European market?

Ukrainian Data Center Landscape The Ukrainian data center market today is undergoing gradual transformation: on one hand, it relies on a.
