

Use of complete low-voltage distribution boxes

Overview

You use this box to distribute electricity safely in homes, schools, or businesses. Our portfolio comprises power distribution boards, busbar trunking systems, distribution boards, protection, switching, measuring and monitoring devices, switches and socket outlets. We will be glad to provide you with extensive support from initial information, planning, configuration and.

Use of complete low-voltage distribution boxes

Low voltage (complete set) distribution cabinet

Choosing a complete set of distribution cabinet equipment that meets the needs should revolve around four core dimensions: scenario adaptation, performance
