

Vanuatu Bridge Construction Project

Overview

Reconstruction of the Teouma Bridge on Efate will now officially begin following its ground-breaking ceremony yesterday on Friday 19th April 2024. Valued at over a billion, the project is expected to be completed by September 2025, through funds from the Japanese Government. The previous bridge was badly damaged by Cyclone Pam in 2015 and subsequent disasters, with heavy flooding at. als concerned of the Government of the Republic of Vanuatu, and conducted Efate Island where the capital of the Republic of Vanuatu is lo ated live along the Ring Road. The longest bridge in Vanuatu will be built in South Santo, at the Navaka River, as part of the South Santo Road Project, which is funded by the World Bank. This was confirmed by the China Civil Engineering Construction Corporation (CCECC), which also confirmed that the bridge is designed as a.
