

What are some manufacturers of aggregation switches

Overview

The global key manufacturers of Aggregation Switches include Actelis, CommScope, LANCOM Systems, Zyxel Communications, PLANET, Cisco, Extreme Fabric Connect, Waystream and OPTOKON as, etc. In 2022, the global top five players had a share approximately % in terms of revenue. The Global Info Research report includes an overview of the development of the Aggregation Switches industry chain, the market status of Public Institutions (4 Ports, 8 Ports), Enterprises (4 Ports, 8 Ports), and key enterprises in developed and developing market, and analysed the cutting-edge. A management switch that allows for the construction of a fiber network at a low cost by replacing a media converter. An aggregation switch is a network device that consolidates traffic from multiple access switches, wireless access points, or other edge devices and forwards it to core switches or routers. By bundling multiple network connections into a single high-bandwidth link, aggregation switches help.
