

# What does pz in distribution box refer to

## Overview

---

The PZ Series Lighting Distribution Box, fully named "Low-Voltage Lighting Power Distribution Box", is a core terminal power device designed for AC 50Hz, 220V/380V low-voltage systems. This comprehensive guide is intended to shed light on the various aspects of the PZ30 distribution box. It is suitable for AC 50Hz, 220V/380V (single-phase three-wire / three-phase five-wire) terminal circuits with a total current of  $\leq 100\text{A}$ . With modern aesthetics, safety-focused construction, and user-friendly features, it meets the needs of diverse applications. It serves as a "power manager" in indoor scenarios, distributing main power to lamps, sockets, and small.
