

What is an Asian fiber optic adapter

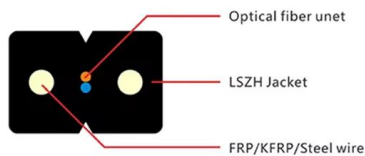

Overview

Fiber Optic Adapters (also called couplers or mating sleeves) are passive connection devices that join two fiber cables end-to-end. Think of them as the "outlet" in your wall—providing a standardized interface where two. When selecting a fiber optic adapter, there are two main factors to consider: cable type and material of alignment sleeve. , two fiber connectors) such that light can reliably pass from one to the other with minimal insertion loss and maximum return loss.
