

What is the tool used to remove the sheath of optical cables called

Simplex SC UPC

Overview

Fiber Cable Slitters are a simple-to-use and effective tool to remove the outer jacket of optic fiber cables. Also known as optical fiber cable strippers, they hold cable within a slot, squeeze their jaws to press through the coating, and slide the coating off the end of the cable. At Emtelle, we provide a wide range of associated products designed to complement and enhance your network infrastructure.
