

# What s wrong with the red light on the router s fiber optic cable

## Overview

---

Several reasons can cause the LOS light to blink red: Fiber Optic Cable Damage: A physical cut or bend in the fiber optic cable can disrupt the signal. Few things are as frustrating as your internet going down, especially when you notice the ominous red blinking LOS (Loss of Signal) light on your router. The following article will explain why the Internet is light red and what you need to do to fix it. A router showing a red light can mean different things, like a service outage, misconfiguration, or loose connection, all of which can lead to a broken internet connection.
