

What voltage is used in an Israeli smart distribution box

Overview

What is the voltage in Israel?

The standard voltage in Israel is 230 volts at 50 Hz. Nowadays, type C plugs can also be used thanks to their compatibility with type H sockets. </p><p>Sockets and electricity in Israel differ from many other countries. Plug Compatibility: Type C, Type H, Type M Voltage: 230V Frequency: 50 Hz Can North Americans use Electronics in Israel without an Adapter?

No! North Americans will need an adapter for the outlets and a transformer for. If the voltage in your country is between 220V - 250V (as is in the Europe, Australia and most of Asia) you can use your equipment.
