

Which Norwegian cable tray type is the best

Overview

Each tray type has specific advantages, limitations, and ideal applications: Ladder trays – best for heavy power cables and long runs where airflow is essential. Nordic Wire Tray's cable laying system consists of wire trays sold under the X-Tray brand. That's why we offer customizable cable ladders that can meet your specific needs. Cable trays are typically classified by structural design, which directly affects ventilation, load capacity, and cable support. From an engineering standpoint, most installations fall into one of the following categories: Each type is not "better" or "worse" in isolation—it is optimized for a. eferred to support and protect numerous small instrumentation and control cables.
