

Which companies are involved in Sino-European fiber optic communication

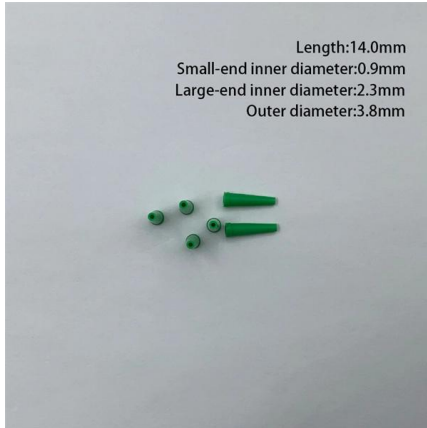

Overview

Major players in the fiber optics market are Corning Incorporated (US), Prysmian Group (Italy), Sumitomo Electric Industries, Ltd. (Japan), Yangtze Optical Fibre and Cable Joint Stock Limited Company (China) and Fujikura Ltd. State-owned telecom firms in China are developing a \$500 million undersea fiber-optic internet cable network to compete with a similar US-backed project, according to four people involved in the deal. The proposed EMA (Europe-Middle East-Asia) cable would connect Hong Kong to China's island. Companies range from specialized installation firms to larger corporations offering full-scale infrastructure services. Known for their innovation, competitive pricing, and massive production capacity, these companies are stepping up to meet Europe's evolving needs. They are also at the forefront of research and development, seeking new ways to enhance the efficiency and reduce the costs of fiber optic. Several companies across the continent are leading the way in producing high-quality, innovative fiber optic solutions.
