

Which department is responsible for the management of telecommunication towers

Overview

Tower owners are responsible for maintaining and upgrading the towers and ensuring that they meet the safety and regulatory requirements. TOC & Customer Interface is working with stakeholders as an orchestrator with TOC. In addition, the Act's General Duty Clause, Section 5(a) (1), requires employers to provide their employees with a workplace free. Who is responsible for approving telecommunications facilities?

The Government of Canada regulates the siting and construction of telecommunication antenna/tower systems under the Radiocommunication Act through Innovation, Science and Economic Development (ISED) Canada.
