

Will the price of optical fiber cable rise or fall again

Overview

From late 2025 into 2026, global fibre optic prices have increased sharply and across the board — standard single-mode, bend-insensitive grades, and in turn pre-terminated assemblies, patch leads, and bulk cable. Since early 2026, the fiber optic cable price has been rising at an extraordinary pace. In some cases, suppliers only guarantee quotations for the same day, and in extreme situations even half-day quotations are appearing in the market. In the latest Optical Fibre and Cable Market Outlook, CRU examines the recent acceleration in fibre pricing and the tightening supply conditions emerging in early 2026.

Will the price of optical fiber cable rise or fall again

Fiber Optic Cable Market Size, Share , Analysis 2035

Fiber Optic Cable Market is likely to reach from USD 18.41 billion to 65.31 billion by 2035, growing at a CAGR of 13.5% during the Forecast Period
