

# **Wiring the wire ends in the distribution box**

## Overview

---

**Wiring Direction:** Wiring between the main circuit breaker and each branch circuit breaker in the box generally goes on the left, and the wiring out of the distribution box generally goes on the right. Learn how to wire a distribution box step by step! This video shows real on-site footage of electrical installation, demonstrating safe and standardized wiring methods used by professionals. Follow this guide for a clear and safe connection process: Before starting, always ensure the main power is turned off to avoid electrical shock. It takes the incoming power and safely distributes it to different circuits throughout your building.

### How to Wire a Home Distribution Box

In this video, we'll walk you through the process of wiring a home distribution box with a detailed connection diagram.
