

# Yikong Low-Voltage Complete Equipment

## Overview

---

Yikong is dedicated to innovative drive systems for AGVs, AMRs, forklifts, electric vehicles, and industrial equipment. It is a national high-tech enterprise with more than 22 years of industry R&D and production experience. Our products—drive wheels, casters, servo drives, and navigation solutions—are trusted in warehousing, manufacturing, and specialized applications worldwide. We develop, design and produce modern electrical drives and Our products are customized to meet each customer's requirements exactly. Yikong Intelligent specializes in the R&D and manufacturing of drive wheels, servo motors, and low-voltage drives, providing highly integrated power solutions for the AGV industry. This article presents an in-depth analysis of a typical low-lift laser-guided AGV system from six aspects: hardware.
