

Zambian manufacturer of flame-retardant optical cables for smart buildings

Overview

Feichun specializes in manufacturing high-performance fire-resistant and flame-retardant cables, providing safe and reliable power solutions for industrial, construction, and other application scenarios. In fire incidents, smoke, high temperatures, and toxic gases pose significant barriers to safe. Protected circuits are required where it is critical that an electrical circuit continues to operate during a fire. A plurality of optical fiber loose tubes arranged according to the color sequence requirements and. Whether that's the cables, the machinery needed to install, or the monitoring & maintenance devices.

Zambian manufacturer of flame-retardant optical cables for smart b

PRODUCT DETAILS

Indoor Fiber Optic Cables , Flame Retardant Indoor

These indoor fiber optic cables are used exclusively within buildings and must have a flame-retardant cable jacket to fit this purpose. Flame resistant cable may be
